Re: National Van Lines Move

Attention: Tom Diedrich

Tom, we wanted to drop you a note to thank you for making our move go so smooth for the shipping of our household goods from Colorado to Arizona!

From our first visit back in June and before our move even got started we liked your professionalism and positive, friendly attitude. In addition, while other moving companies advised we would have to pick up our boxes at their location, you provided that personal touch and brought all the boxes we needed right to our home in a very timely fashion.

Every aspect of moving our household goods was just as you laid it out and right on schedule. And your follow up after our move was very much appreciated as well.

Thank you again for a great moving experience.

Best regards,

Kent & Karla Strong
